

GOING BOATING?

Rodents have been found on the Abel Tasman National Park's previously predator-free Adele, Tonga and Fisherman Islands. Ongoing predator control is underway but **we need your help.**

If landing at Adele or Fisherman Island or mooring near any of the islands, **please check boats and gear are free of rats, mice, ants, seeds and weeds.**

Help keep these islands safe for native wildlife. For more information please visit www.janszoon.org/biosecurity

7 mm

Size of gap a mouse can squeeze through.

South Island saddleback-tīeke

South Island robin-toutouwai

12 mm

Size of gap a rat can squeeze through.
